Dear Lance Weimer

It was good to hear from you. Your recent activities sound good and healthy. Yes, you must do the *David Concerts*. You have the fire & warmth it needs!

I certainly am not surprised to hear of your luck with the concert field - you know how to project the composer's meaning. Bravo!

The next time you are in New York on a Tuesday or Wednesday please call me at Julliard 799-5000x292. I would indeed enjoy hearing the *David* and seeing you again

Jan 24 - 57

Dear Lane

I have sent a good letter to the University of Delaware and wish you well.

I like to "tailor-made" such letters and adjust them to the particular situation. Often I know the school and the people involved and believe this is the better way.

→ please do not hesitate to ask me for such letters. I feel this is my responsibility toward you and people like you who will contribute significantly to the musical culture of our times.

Enrico Caruso
